[*Note* Suggestions as to the origin of the name *puffin* have mostly supposed some connexion with the verb or sb *puff*: v the adj *puffy*. Thus it has been conjectured to refer to the puffy or corpulent appearance of the bird (quot. 1678), or esp to the plumpness of the young, formerly considered a delicacy (cf the simile 'as plump as a puffin'), also to the soft downy clothing of the young (Prof A. Newton). Others have sought an explanation in the remarkable puffed form of beak, or in a puffing sound uttered by the bird or its young when seized Camden (1570) expressly declares that the name is derived 'a naturali vocis *pophus*'. But, as the ME forms of the name are spelt *poffe*, and the earliest known association of the bird under this name was with Cornwall and Scilly, it is evident that these conjectures rest on insecure bases. The name may even have come from Cornwall, and its change to 'puff' may be due to 'popular etymology' in English. The erroneous sense b, is due to RAY, who was took young ape i nens of the shearwater from the Isle of Man for puffins and applied to them the name *P. fanus anglorum* (applied by Gesner to the real puffin) which has unfortunately been retained in ornithological nomenclature.]

Machines for raising water were in ancient and mediæval use, but no trace of the name *pump* appears before the 15th c : his is, as yet, known first in Eng *c* 1440, in the sense of a ship's pump, for pumping out the bilge water, in which sense it was quite common 1450–1500. In Du, LG HG not recorded in this sense before the 16th c, in Fr cited 1517 in Hatz Darm., in Du as *Vervuyt* in Verdam, in Ger *c* 1550 (Hans Sachs in Grimm). Plantijn 1573 gives for Du only the sense 'bilge, *de bomp des schips*,' Fossec de la mayire, sentina, *pompes, pompes, pompes*,' Loesc, sentinam expurgare', but Kilian 1599 has *pompe* in sense both of a ship's pump, and a pump generally In Du dialects, *pompe* is found as 16th c name of a pipe or tube of wood or metal, or a stone conduit, for the conveyance of water under ground, a sense also found in Frisian, and in some Low German dialects. In most of these dates and various senses it is not easy to form any inference as to the language in which the word arose; but the probability has been in English and Dutch (or Low German) in either case, and prob. first in nautical use The primary sense seems to lie between that of 'pipe, tube,' and an echoic formation from the sound of the plunger sinking in the water (see PLUMP *sb* 2 the latter of the collateral form *plumpe*, PLUMP *sb* 2 found as early as 1477, also LG *plumpe* pump ; and conversely Ger *pumpf* the bittern, found of a hoarse *pumpen* to make such a sound (Grimm), admittedly echoic. The Cat , Sp Pg *bomba* (pump), viewed by Diez as the source of the French, may have been derived from F *pompe*, but is more prob an independent though analogous echoic formation The It. is *trombe*, orig = trumpet, tube, but Venetian and some other north It dialects have *bomba* from Fr or Ger]

I 1. A mechanical device, commonly consisting of a tube or cylinder in which a piston, sucker, or plunger is moved up and down by means of a rod, or rod and lever, so as to raise water by lifting, suction, or pressure, the movement of the water being regulated by a suitable arrangement of valves or clacks ; from early times used on board ship to remove bilge-water ; also, from 16th c , for raising water from mines, wells, etc , now, a generic term for a great variety of machines and mechanical devices for the raising or moving of liquids, compressing or rarefying of gases, etc.

Pumps are variously qualified according to the principle of action, manner of working, mechanism of operating, purpose, etc , as *force, lift, lifting, suction pump* ; *bure , centrifugal, centripetal, chain, double-acting, jigger, oscillating, post, rope, rotary, spiral pump* ; *bucket-and-pump* ; *air-beer, bicycle, bilge, breast, circulating, dental, donkey, dredging, feed , gas, mining, oil , pneumatic, sailing, steamboat & steam* , etc , for many of which see the specific words.

Punch (pʌnʃ), *sb*.[1] and *a* Now chiefly *dial* [Of uncertain origin No words certainly related are found outside English

It has been suggested that it is short for PUNCHEON[2] cf Bav dial *punsen* a cask, also a short thick person or thing (Wedgwood) also that it is connected with Bunch But as Pepys, in quots. 1669 in PUNCHINELLO 2 and in A here records the use of both *punchinello* and *Punch* as appellations for a short and thick person, it is highly probable that *Punch* in this sense as well as in the next word, was in its origin short for PUNCHINELLO As it is not certain whether the sb or adj was the original the senses are here arranged chronologically on the hypothesis that the adj B was an attrib. use of the sb. A and that an elliptical use of the adj gave rise to the substantive sb C

(*Note* There is every probability that the Eng *polichinelle* and F *polichinelle* are derived from the Neapolitan word, and that *Punchinello* although evidenced somewhat earlier, and actually given prob. in error as the name of the puppet showman was an English alteration. The Italian word is said in the *Vocabolario Napoletano* of 1789, to be a corruption of the name of a comedian *Puccio d'Aniello*, originally a peasant of Acerra, whose uncouth physiognomy is said to have served as the model for the mask of the character: another conjecture cites the name of *Paulo Cibellio*, said to have been a buffoon at Naples. Setting aside these legends or conjectures, it has been pointed out that L. *pulcinella* is dim. of *pulcino* chicken, and according to Quadrio and Berretti, cited by Pianigiani *Vocab Etimol Italia lingua Ital*, 1907, in the Neapolitan dial. *pollecenella* is dim. of *pollecena*, the young of the turkey-cock to the hooked bill of which the nose of the mask bears a resemblance)

OE *punt* was, from its vocalization, probably an ancient word, representing a form which must have existed in Britain, but it may have been only in local use, in which also it seems to have continued during the ME period, though no example has been cited. The word *punt-boat* is found in the Maldon (Essex) Records of date 1500 as a current word, and it is noteworthy that the literary use begins with Holland, a native of that county, who in his translations uses it, evidently as a familiar term to render various L words, e.g *linter, matta, ratis* at *cui vehor catata*]

Pupil teacher (pi·ă pil,tī·tʃəɹ) A boy or girl preparing to be a teacher, who spends part of the period of preliminary education in employment as a teacher in an elementary school under the supervision of the head teacher, and concurrently receives general education either from him or in some place of higher education.

The system was introduced into England from Holland in 1839-40, the pupil teachers being originally bound as apprentices, a plan which came to an end after 1870. The system has undergone many changes; its history up to 1902 is told at length in a *Memorandum on the History and prospects of the Pupil Teacher system*, issued by the Board of Education in that year

1839 Dr Kay in *4th Ann Rep Poor Law Comm* App B No 3. 250 In the normal school at Haarlem certain of the most intelligent scholars were selected to be trained to the occupation of teachers ...Those pupil teachers would constantly acquire a greater degree of skill and knowledge. **1846** *Min. The exact history of this transfer of sense is not evidenced, it was prob. at first an incorrect popular use of the term, but it appears to have been already established before 1344 (when the L. *perambulatio* appears in the same sense), and thus within ten years of the time at which Robert of Brunnes used *purald* in the original sense. *English* examples have not yet been found before 1480, when the word evidently appears as PURLIEU ; but *purelle* (*purlelle*), was used by Manwood and by other legal writers as identical with *purlieu*, and the form *purlye* has come down from the 16th c to modern times in the comb *purlyeman* as variant and spoken form of PURLIEU MAN, q v

1 *Hist* A member of that party of English Protestants who regarded the reformation of the church under Elizabeth as incomplete, and called for its further 'purification' from what they considered to be unscriptural and corrupt forms and ceremonies retained from the unreformed church, subsequently, often applied to any who separated from the established church on points of ritual, polity, or doctrine, held by them to be at variance with 'pure' New Testament principles

According to Stow (see quot 15) the name was (? originally) assumed by congregations of Anabaptists in London; but this is probably an error, for otherwise it appears in early use always as a term of reproach used by opponents and resented by those to whom it was applied see quot from Fuller 1655 Its application changed with time and the course of events Originally, it was applied to those within the Church of England who demanded further reformation, especially in the direction of Presbyterianism; afterwards, naturally, to the same party when they were separated from the Church, and became the anti episcopal Presbyterians, Independents, or Baptists, and consequently to the typical 'Roundheads' of the Commonwealth period, whose puritanism was sometimes little more than political In later times, the term has become historical, without any opprobrious connotation, and has even, from its association with *purity* and *pure*, come to be treated, by those who in opinion agree more or less with the early Puritans, as a name of honour

[*Note.* The various senses above have been treated together rather for convenience, as all relating to the decoration of apparel, than from any certainty that they are all uses of the same word. The derivation of sense 1 seems clear. That sense 2 had the same origin is possible if the *twist* given to the minute loops was the characteristic. Or it may be that as the purl edging of lace, etc. had a similar ornamental use to that of gold and silver purl, the name was extended from the one to the other; the possibility of this appears to be shown by Cotgrave's inclusion of both as meanings of F. *canetille*, in quot. 1611. The connexion of branches II and III is much more difficult to explain, and their inclusion must be considered as merely provisional; the latter may very well be a distinct word and perhaps better spelt (as it often is) *pearl*. Minsheu in his *Ductor* suggested that *pirle* was the same word as PURFLE, but this is historically as well as phonetically unlikely.]

Puseyism (piu·zi,iz'm) [f the name of Dr E. B Pusey, 1800–82, professor of Hebrew and Canon of Christ Church at Oxford + -ISM] A name given by opponents to the theological and ecclesiastical principles and doctrines of Dr Pusey and those with whom he was associated in the 'Oxford Movement' for the revival of Catholic doctrine and observance in the Church of England which began about 1833, more formally and courteously called Tractarianism Now little used

Dr Pusey's initials were appended to No. 18 (21 Dec. 1833 on Fasting) of the *Tracts for the Times*, and of the ninety, seven were written by him His academic and ecclesiastical position gave great weight to his support of the movement and specially associated his name with it.

Put (put), *v.*[1] Pa. t. and pa. pple. PUT (put). Forms: see below. [Late OE. *potian* (? **potiende*), represented *c* 1050 by the vbl. sb. *putung* (? **put-*), PUTTING; thence early ME. *pōten* and ? *putten*, later *putten*, *putt*, *put*. Beside this, late OE. had *potsan* (11th c.), ME. *pōten* (see POTE *v.*), and *potten*; also, OE. *pytten* (repr. by *pytan dē* in the OE. Chron., MS. F, (12th c), anno 796, and *dē ápytan*, put out, thrust out, Numbers xvi. 14), which made pa. pple. southern ME. *putten*, *pytte* (= **pitte*), and may even have been the source of the late ME. *pytten*, *putten*, *pyt*, *put*. Prof. Sievers thinks that the stem-vowel in OE. *pytan* (...**pūtyan*) was certainly long, and in *putian* probably so, and suggests that the ME shortening of the vowel was carried over from the pa. t. and pa. pple *pytte*, *putte* from *pyt*, *put*. The normal conjugation in ME. was pa. t. *put-te*, now *put* (cf. *cut*), in ME. and early mod. Eng also *puttede*, *putted*, pa. pple ME. *yput*, *yputte* and *putt*, now *put*, also in 14–16th *c* *putted*. But in Sc. and north Eng. dialects, *put* (or rather its northern form *pyt*, *pu'*), has been from the 15–16th c. conjugated as a strong vb., with pa. t. *pat*, pa. pple. *putten* or *putten* (also in Eng. dialects *put-in*, *-on*, *-up*, *-out*, *-through*, *-over*, etc.) also arose out of **putten*. With these compare the northern inflexion of HIT, *hat*, *hutten* or *hitten*. The variant *pot*, *pott*, occurs as an existing dialect form, besides surviving in a differentiated form and sense as POTT. The differentiated vb PUT *v.*, PUTT (*pʊt*), used in golf, and in Sc. also in 'putting the stone', is conjugated *putt*, *putted*, *putted*, and is thus quite distinct in Sc. from *pit*, *pat*, *putten*, as well as from the ordinary Eng *put*, *put*, *put*.

For the earlier history evidence is wanting, but the various forms appear to be parallel formations from a stem **pūt*, **pyt*, whence also the vb. *putten*, to put, to put in, which appears in Kalkar only from the 15th c. Rietz gives a southern Swedish *putta* (with variants *pitta*, *pottai* in two senses (1) a knife, a knuffa ill linefft (to strike with a push gently); (2) = sticka undan, ställa bort, 'putta i lom man' (to put out of the way (or conceal), put away, 'put in the pocket'). The Welsh *pwtio* and Gaelic *put* are from Eng. ME. had also a vb. *putten*, *pitten* (see PUTT), which was synonymous with *put*, and even occurs as a variant reading in 1381 *c* MSS., but could not be formally related. It became obs. (at least in the senses in question) before 1500. In the sense 'strike with the head or horns', ME. *putten* was in early mod. Eng. also a variant with *butten*, BUTT *v.*, which has been superseded in literary English; but some dialects retain *put* in this sense

† **Puttock**[2]. *Naut. Obs* [Origin obscure see below.] The original name of the small or short shrouds connecting the lower shrouds with the top, also, where there is a top gallant mast, the similar set connecting the topmast shrouds with the top gallant top. After 1700 usually called **puttock shrouds**, and now *puttock-shrouds*, from an erroneous confusion of the word with Futtock in the latter half of the 18th c.

a 1625 *Nonsenc Navalis* (Harl MS. 2301) 100 *Puttocks* are the small Shrowdes which goo from the Shrowdes of the Main, Fore and Mizen mast and also to the Topmast shrowdes, if the Topmast have a topp gallant topp, t'e use whereof is to goo of the shrowdes into the topp, for when the shrowdes come neare upp to the mast they fall in so much that otherwise they could not gett into the topp from them. [*Note.* The form *puttock* is a regularly used down to 1790 at least, but after that date it appears to have been from similarity of sound, confused with Futtock, the name of the middle timbers of the ship's frame, with which the *puttocks* had no manner of connexion Hence in Falconer's *Marine Dict* 1769, and app in all later works, *puttock* is replaced by *futtock*, in the combinations given in 1 Futtock 2, *futtock bolt*, *hoop*, *plate*, *rigging*, *shroud stuff stave* belong to this erroneous substitution of *futtock* for *puttock* As *futtock* was perh up *foot hook*, it has been suggested that *puttock* was = *pothook* (of which a form *puttock* occurs in 1707) but nothing in the sense appears to confirm this suggestion Some illiterate use of Puttock has also been conjectured. More probable is a connexion with Du *puttinc*, applied in 1673 to the chains of the main shrouds, while *mast-puttinge* is also rendered by *quarders de haute* the puttock shrouds. Cf Efris *puttinq* (pl *'s*, *en*), ter *putting* or *pulting* (*s*, *sen*), Da *pulting* (*ers*), *sw pölting*, the iron links or chains by which the shrouds of the mast-s are secured to the ship s sides, the chains of the dead eye, ter *puttinq tane*, Da *pulting vanter*, *sw pultingvant* = 'puttock shrouds' But the source of *pulting* or *pöltinq* is unknown]

[*Note* 1] The etymology of *puzzle* the first question is the relation of the vb. and vb. to the sb. Is the latter held to be derived from the sb, and the latter viewed as an aphetic form of Apposal or Opposal. But the chronology of the words and still more the character of their earliest history seem to make it clear that the verb came first and that the sb. was its derivative In the light of this, the vb has been referred to Posse *v*.[2], as a derivative (or other derivative formation) as in *snack : tickle*. This is phonetically possible cf *nozzle* from *nose*. But there are serious difficulties in the application. Of the earlier sense of *puzzle*, as seen in the examples under 1 a above, no trace appears in the original sense *Myst* and *Apposal* to examine by putting questions, and it is only the derivative senses of *Posse* and *Pose* that come into question. Then as to the similar form appears in late OF *pushum* to pick out best pieces of food (Sweet), = Du *peuzelen* to pick to peddle, Ld *pôsein, pozzelen*, Norw *pusla*; but it is difficult to see in its sense any connexion with that of 'puzzle 1]

[*Note* The numerous Latin versions of Dioscorides left πυράκανθα unidentified, and merely latinized as *pyracantha* According to Lobel *Adversaria* 438 (1576), this was derived from L *pyrus* pear + Gr ἄκανθα thorn from the resemblance of the leaves to those of the wild pear ('arbusta cui facies et folium Pyrastri propter foliorum similitudinem nonnulli Pyracantham vocant' But this hybrid origin was of course impossible for the Greek word and the name has been commonly taken as meaning 'fire-thorn' f πῦρ fire + ἄκανθα thorn, and considered to be appropriate to the modern pyracanth from its profusion of scarlet or flame-coloured berries. For the identity of this with the πυράκανθα of Dioscorides there is no other evidence.]
